Tax additions (VAT+NHIL+GETFund 20%)	+ GHS 34,990
WHT (2% of net)	- GHS 3,499
Net payable	GHS 206,443

This document is a system-generated export of the CORE1X commercial record at the time of generation, not a signed payment instrument. No supplier invoice/certificate entity is modelled in this build, so the match above is PO-vs-GRN only, not the full three-way match. The approval/payment-release chain is a single collapsed transition in this build, not the full multi-actor authority chain the underlying page contract calls for.
